

## Corporate Statement of Responsibility

At our core, we believe responsible business practices create stronger communities, better products, and long-term success for our customers and partners.

As a manufacturer of architectural door hardware in Indiana, we are committed to operating our business with integrity, accountability, and respect for the people and environments we impact.

### Responsible Manufacturing

We continuously work to improve the efficiency of our manufacturing processes to reduce waste, conserve resources, and minimize environmental impact. By investing in thoughtful production methods, we strive to produce durable, high-quality hardware while using materials responsibly.

### Employee Safety and Well-Being

Our employees are the foundation of our success. We are committed to providing a safe, respectful workplace that prioritizes health, safety, and professional development. We believe that supporting our team creates better outcomes for our customers and our community.

### Environmental Stewardship

We recognize the importance of protecting natural resources for future generations. Our company actively seeks ways to reduce waste, recycle materials, and improve energy efficiency within our facilities and operations.

### Recycled Material Content

Many of the metals used in Frascio products contain substantial recycled material derived from scrap metal and reclaimed industrial by-products.

- **Brass and Zinc:** Typically contains **80–100% recycled material**, consisting of melted scrap metal and reclaimed metal by-products.
- **Steel:** Typically contains approximately **30–40% post-industrial recycled content**, representing scrap metal and recycled material reintroduced into the production furnace.
- **Stainless Steel:** Typically contains approximately **70% post-industrial recycled content** and **18% post-consumer recycled content**.

### Community Engagement

As a locally based manufacturer, we value our connection to the Indiana community. We support workforce development and initiatives that strengthen the communities where our employees live and work.

Through these commitments, we strive to build lasting relationships with our customers, partners, and community while manufacturing products that meet the highest standards of quality and responsibility.
