Open a world of lever design possibilities

Frascio is positioned to help designers, architects, and specification writers in a way that very few others in the industry can — by providing a vast selection of designs and elegant finishes combined with robust, commercial-grade construction.

We've assembled one of the largest, most diverse, collections of handle designs and finishes in the world. Choose from over a hundred high-end decorative lever designs engineered using the highest quality materials and crafted with careful attention to detail. You'll never have to compromise your design to get the performance and durability you need.

FRASCIO LEVER AT FONTAINEBLEAU LAS VEGAS

TURN YOUR VISION INTO REALITY

We understand you want products that are not only beautiful, but will also perform well in high-traffic, high-use environments. Our products combine elegance with strong mechanical engineering and commercial industry experience. For nearly 80 years, Frascio has provided distinctive Italian lever designs used in some of the most distinguished projects around the world. This heritage of innovative forms and shapes continues through our ongoing collaboration with leading industrial designers as well as our in-house engineers.

FLEXIBLE ADAPTATION SOLUTIONS

Frascio's unique capability allows designers, architects and specifiers alike to maintain a high level of decorative consistency throughout the project all while meeting the most stringent mechanical and security requirements.

FR INTERNATIONAL

FR International, based in Carmel, Indiana, provides the commercial marketplace with all the advantages of a high-end decorative hardware brand combined with strong mechanical engineering and commercial hardware industry experience. Our designs are available on rugged commercial quality mechanical platforms that conform to market requirements.

ENVIRONMENTALLY-FRIENDLY MANUFACTURING

Frascio is committed to responsible business and manufacturing practices that help conserve resources and protect our environment.

Frascio products are manufactured primarily from brass, zinc, stainless steel, and steel. Much of the raw material used to produce these parts comes from recycled metal. When no longer needed, Frascio brass, stainless, and zinc parts are 100% recyclable.

more about our
finishes, finish
options and more.

Note: Not all lever designs are available in all finishes. Due to variations in lighting, screen settings, and printing processes, finish colors may appear differently in print or on digital displays. We strongly recommend reviewing physical samples prior to making final finish selections to ensure accuracy and satisfaction.

Responsive Creativity

From concept to completion, we're here to support you every step of the way. While offering an extensive range of design options, Frascio remains personal in our approach to collaboration. Our expert design team leverages cutting-edge technology to engineer and produce customized solutions tailored to your vision. We're always just an email or phone call away.
