FRASCIO PARTNERED  
WITH 30+ DEVELOPERS  
WORLDWIDE

# The Frascio Advantage

FRASCIO LEVERS AT THE GRAND BY GEHRY  
PARTNERS/HKS LOS ANGELES, CA

For over 80 years, Frascio has been a partner for developers of distinguished projects around the world. We combine Italian design heritage with American engineering expertise to deliver decorative door hardware solutions.

From our extensive collection of over 100 designer lever options to our dozens of finish options, Frascio provides everything you need to make your hardware specification process effortless and your final result exceptional.

Let us show you the Frascio advantage.

## The World's Largest Collection

### UNMATCHED DESIGN SELECTION

Choose from over 100 high-end decorative lever designs—one of the largest, most diverse collections in the world. This vast selection means you'll never have to compromise your project's aesthetic vision to meet performance requirements. From contemporary to classical styles, Frascio provides the design options that help differentiate your development in a competitive market.

Our expert team can guide you on what designs make the most sense for your project, ensuring your hardware selection enhances your overall value proposition.

## Budget-Friendly Flexibility

### WIDE RANGE OF PRICE POINTS TO ADDRESS YOUR BUDGET

Frascio understands that every project has unique financial parameters. With over 80 years of manufacturing experience, we offer decorative door hardware solutions across multiple price points, allowing you to optimize costs without sacrificing design quality or performance.

Whether you're developing luxury high-rises or value-oriented residential projects, we can guide you to designs that make the most sense for your specific budget and market positioning.

## Design Integrity

### A UNIFORM LOOK ACROSS YOUR ENTIRE PROJECT

Maintain complete design consistency from lobby to penthouse. Frascio's ability to provide levers that match ALL your project's openings means **no mismatching of designs between exterior and interior doors**. Our innovative leverset rose mounting systems allow the same lever style and finish to be suited across your entire project on all locking system platforms.

This unified aesthetic creates a cohesive, premium experience that residents and visitors immediately recognize—adding tangible value to your development.

## Electronic Integration

### VALUED RELATIONSHIPS WITH LEADING ACCESS CONTROL MANUFACTURERS

Frascio maintains strong partnerships with North America's leading electronic access control manufacturers, including Salto, Dormakaba, Vingcard, and other major brands. We work directly with these manufacturers to ensure your chosen designs integrate seamlessly with their electronic systems.

Many Frascio lever designs can be adapted for use with the industry's most popular access control systems, as well as major exit device brands, providing a fully-suited design package for your project. Lever adaptations are available for nearly all major exit device brands, ensuring consistent design even on your emergency egress doors. This collaboration means you get both the security technology and the aesthetic appeal your project demands.

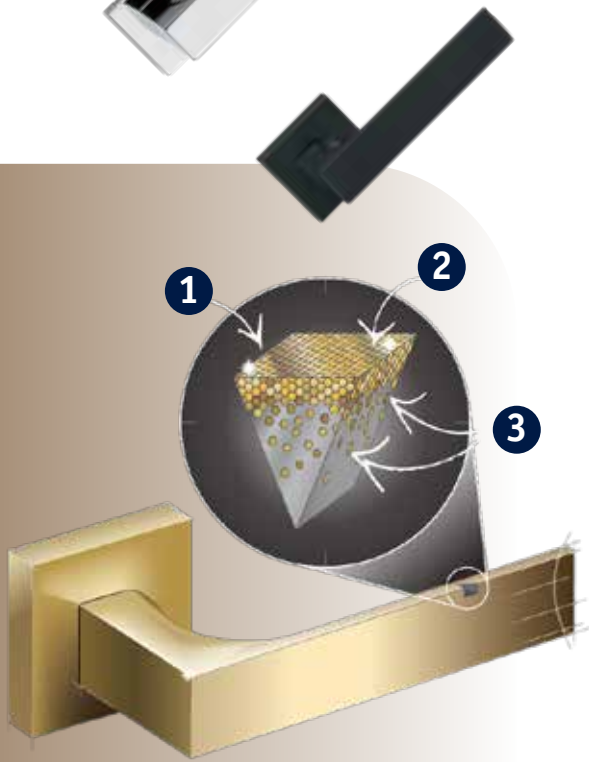

## Dozens of Color Options

### FINISHES TO MEET THE MOST DISCERNING PALETTE

Frascio provides one of the broadest ranges of decorative finishes in the industry:

- **Traditional BHMA standard finishes** in electroplated, powder coated, and natural base materials (stainless steel, bronze, brass)
- **Industry-leading PVD (Physical Vapor Deposition) finishes** offering superior performance and elegant color options
- **Custom finish capabilities** to match your unique design requirements

Our PVD process, pioneered by Frascio 30 years ago, creates extremely durable surfaces that resist abrasion, scratching, chemicals, and humid environments. With dozens of color options available, you can create the exact aesthetic your project demands.

- 1 HIGHLY DURABLE  
LEVER SURFACE
- 2 TIGHTLY PACKED  
PVD METAL MOLECULES
- 3 PVD FINISH EMBEDDED  
IN LEVER BASE MATERIAL

# Complete Project Support

## INDIANA-BASED ENGINEERING AND SALES TEAM

From inception to final completion, Frascio's engineering and sales staff based in Indiana provides comprehensive support for your vision:

- **Complete documentation support** for specifications and submittals
- **Technical assistance** to ensure proper application and code compliance
- **Design recommendations** tailored to your project needs
- **Coordination support** with architects, designers, specifiers and contractors
- **Rapid response times**—nothing is too trivial for our team

You and your team receive complete support all along the way, ensuring your hardware package is delivered on time, on budget, and to specification.

## Built to Last

### DURABLE LEVER CONSTRUCTION FOR LONG-LASTING PERFORMANCE

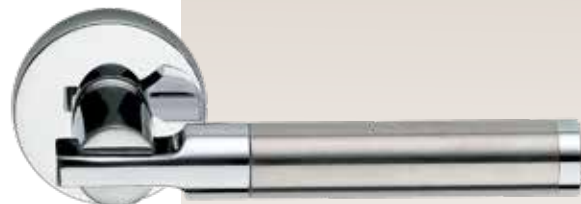

Your residents expect hardware that performs flawlessly for years to come. Frascio combines elegant Italian design with robust, commercial-grade American engineering. Our products are specifically verified for hospitality and multi-family residential use, ensuring they withstand high-traffic, high-use environments throughout the life of your project. That means fewer maintenance calls, happier residents, and lower long-term operational costs.

## Responsive Creativity

Looking for something unique? Frascio offers unlimited customization possibilities:

- Design modifications to existing products
- All-new designs for levers, roses, escutcheons, or pulls
- 3D CAD technology to bring your ideas to life
- Rapid 3D prototyping for physical samples

If you can imagine it, our talented design team will work to engineer and produce it. We're committed to making the process seamless and rewarding.
