

Mortise Cylinders

Mortise Cylinders

Frascio mortise lock systems are provided standard with a solid brass mortise cylinder designed for optimal operation in our mortise locks. Schlage C keyway and 6-pin configuration provides thousands of combinations. Master-keyed systems are available upon request. Contact us for specific details.

- 1-1/4" (32 mm) cylinder length is typical for standard door thickness and trim design
- Actual cylinder length required will be determined upon consultation or at time of order

Standard CMC Mortise Cylinder

Optional CMS SFIC Cylinder Housing

Available in 6-pin or 7-pin

Optional LFIC Cylinder Housing

Available for Schlage, Sargent, Yale and Corbin Russwin

Available Cams

Cloverleaf – CL
(standard cam)

Straight Cam – STC

Adams Rite
Cam – ARC

Straight Radius
Cam – SL4
